11/Apr/24 - Working on issue BARB-3	0.25
BARB-8 - Checkout	8
Chad VanCalster	8
19/Mar/24 - Task: Registration Form Working on registration form customization not completed yet	5
02/Apr/24 - Task: Registration Form 1. User registration form with given input form fields integration is completed. 2. Form fields validation is done. 3. After form submission mail verification feature implementation done.	3
BARB-9 - Buyer Pays 2.9%+ . \$30 10% Seller Fee Seller Keeps 90%	1.75
Vikrant Kumar	1.75
12/Apr/24 - Working on issue BARB-9	0.5
16/Apr/24 - No Shipping required	0.25
16/Apr/24 - Activity: Jira, Commented	1
BARB-10 - PDP	48
Chad VanCalster	48
26/Feb/24 - Task: PDP Page Layout 1. Name, Logo, Description added inside store tab within product detail page. 2. I did R&D in WCFM plugin document, how to implement store review using custom. So, working on it.	3
29/Feb/24 - Task: # User Engagement: 1. Add to Cart: A "Add to Cart" button will be placed for users to add desired Barbie products to their shopping cart directly from the listing page. - DONE 2. Buy now: Users can directly purchase the project by clicking on the buy now button. - DONE 3. View Details Users can click on the view details button to review the detailed attributes of the product through the product details page. - DONE	2
29/Feb/24 - Task: # Search Bar: Added search bar just above the categories list within the product page.	1
29/Feb/24 - Task: # Sorting Options: Shorting already with theme and it is working	1

Project / Issue / User / Worklog	Logged
29/Feb/24 - Task: # Attributes 1. Product Image: Each Barbie product listing will showcase an image - DONE 2. Product Title: Product titles will be displayed. - DONE 3. Product Description: A brief description will accompany each product. - DONE 4. Pricing Information: Display the cost of the Barbie products. - DONE 5. Rating: An average of the product ratings by different customers will be shown. - DONE 6. Discount Indicators: Products with ongoing discounts will be displayed with the discount indicators, along with the % of discounts. - DONE	5
29/Feb/24 - Task: # Filters: 1. Users can filter products based on specific categories, from the list of the categories. - DONE 2. Users can filter products by price range and ratings. - WORKING	3
01/Mar/24 - Task: # Filters: Filter by rating integration is done. Additional custom code is added inside plugin (Wpbingo Core) file because there is no hooks or setting in the backend to enable Rating filter.	2
01/Mar/24 - Task: # Product Information Functionality is already in the theme. I did just go through on it	1
01/Mar/24 - Task: # About the Seller: 1. Seller Information: The PDP will feature information about the seller, including their name, bio, and photo, with the link to view the seller's details page/store. - DONE 2. Seller Rating: The seller's overall rating, based on previous transactions and user feedback, will be displayed. - PROGRESS (NOT DONE)	3
04/Mar/24 - Subtask: Buy Now Option: (# Purchase Options:) Buy now button in single product page integration is completed.	2
04/Mar/24 - Subtask: Add to Cart (# Purchase Options:) This feature is already in single product page.	1
04/Mar/24 - Subtask: Make an Offer Option (# Purchase Options:) 1. Make an offer link added just after add to cart button in single product page. On click "Make an offer" a popup will display inside which I have given form fields as per client requirement. On save form all the data saved to backend. This functionality is partially completed.	2
06/Mar/24 - Subtask: Make an Offer Option (# Purchase Options:) 1. Save requested offer to custom post type and meta fields - DONE 2. Display requested offer list with detail to each particular seller in wcfm frontend - DONE 3. Approve/Disapprove link has added and on click ajax functionality - DONE Remaining : - Notification functionality, coupon code creation, automatically apply coupon for approval customer.	3
07/Mar/24 - Subtask: Make an Offer Option (# Purchase Options:) 1. Notification functionality - On approve mail notification to seller and on approve offer notification mail trigger to customer is complete. 2. coupon code creation - On approve a unique coupon code is created using custom code only for that particular customer for that particular product is completed. Remaining - Automatically apply coupon code if requirement match.	3
11/Mar/24 - Subtask: Make an Offer Option (# Purchase Options:) Automatically apply coupon code on that particular user and product is completed. "Make an offer" functionality is completed	3
12/Mar/24 - Subtask: Related Products (# Purchase Options:) I have checked this feature is already exists Task: # Selected Products This already exists	0.75
12/Mar/24 - Task: # User Interaction 1. Edit Quantity: # Users will have the option to adjust the quantity of each item in the cart, allowing for easy customization based on their preferences. - DONE 2. Remove Items: An option to remove specific items from the cart will be available. - DONE 3. Clear Cart Option: Users can choose to clear the entire cart with a single action. - DONE 4. Proceed to Checkout: A "Proceed to Checkout" button will be available, guiding users to the next steps in the purchasing process. - DONE 5. Users can only purchase one product at a time from the cart. They can't purchase/ process checkout with multiple products at a time, but they can increase/decrease the quantity of the same product. - DONE	4
08/Apr/24 - Task: # About the Seller: Working on seller review - Working on store reviews - Tab added just after seller info within the PDP. Some work is done but not completed also design part is remaining.	2.5
09/Apr/24 - Task: # About the Seller: Review submit functionality with AJAX submission done.	3
10/Apr/24 - Task: # About the Seller: 1. Working on approved review fetching functionality.	2.75
