

new reply

Chad VanCalster

It is important to consider the complete context. I informed my client that the project was extensive and required initial budget constraints, with plans to add additional features subsequently. Despite repeated warnings about staying within scope and ... [See more](#)

Chad VanCalster I requested to add a Doll Wall, according to your hours this required 7 hours. In addition, you did not really do the logos, I provided the picture I wanted to use and you basically wrote the name in different font, so you changed front for my logos. From the start of the project everything has been a pain because it took me normally 3-5 times for me to request something before it was done. In addition, you are lying now, you did not set up a social media account, I needed to.
